

GET IN-FURROW PROTECTION SO ADVANCED, IT'S SIMPLE.

Take advantage of game-changing convenience and ground-breaking performance. The new 3RIVE 3D® application system takes the work out of insect protection and simplifies planting.

As part of the FMC Freedom Pass program you can get a 3RIVE 3D application system at no cost when you commit to three-year purchase minimums of Capture® 3RIVE 3D® Insecticide.

SAVE WATER, FUEL, LABOR AND TIME.

How it works:

- The 3RIVE 3D application system includes a water tank, product tank and everything required for application. Its compact design easily mounts to all major planter brands.
- Water and Capture 3RIVE 3D Insecticide mix in the applicator. You don't have to do any measuring or mixing.
- The water/insecticide mixture expands up to 50X to deliver 3D in-furrow protection for both corn and soybeans.
- The 3RIVE 3D application system eliminates the need for saddle tanks, reduces refills and soil compaction and expedites planting.
