

Anthem[®] MAXX Herbicide Corn Assurance Program

Program Description:

Anthem[®] MAXX herbicide for corn provides long-term residual activity with excellent broad spectrum grass and small-seeded broadleaf performance. Anthem MAXX herbicide has great flexibility and can be utilized pre-plant, pre-emergence and early post emergence in corn; and will provide an additional 2-3 weeks of weed control on grasses and small seeded broadleaves beyond other corn residual herbicides.

Growers that follow the guidelines of the 2019 FMC Freedom Pass Corn Herbicide Assurance at the minimum specified rates will be eligible for an assurance payment up to \$10/A if the FMC recommendation does not maintain commercially acceptable 90 percent control of labeled weeds versus an untreated check. Any assurance claim must be reported within 30 days of last application.

FMC CORN HERBICIDE RECOMMENDATIONS			
Pre-emergent	Early-Post	Minimum Rate Requirements	Assurance Payment
Anthem MAXX herbicide	mesotrione + atrazine	<p>4 fl. oz./A of Anthem MAXX herbicide + 1 lb./A of atrazine</p> <p>followed by</p> <p>3.0 fl. oz./A of mesotrione 4 SC herbicide or dicamba 0.25-0.5 lb ae + 0.5 lb./A of atrazine + labeled rates of glyphosate or glufosinate herbicide</p>	Up to \$10/A
Anthem MAXX herbicide + mesotrione & atrazine + labeled rates of glyphosate or glufosinate herbicide	-	<p>4 fl. oz./A of Anthem MAXX herbicide + 6.0 fl. oz./A of mesotrione 4 SC herbicide + 1.5 – 2.0 lb./A of atrazine</p>	Up to \$8/A
Start Clean – Burn down application and/or soil tillage	Anthem MAXX herbicide + mesotrione + atrazine	<p>4 fl. oz./A of Anthem MAXX herbicide + 3 fl. oz./A of mesotrione 4 SC herbicide or dicamba 0.25-0.5 lb ae + 1 – 1.5 lb./A of atrazine</p> <p>labeled rates of glyphosate or glufosinate herbicide</p>	Up to \$8/A

NOTE: Anthem ATZ herbicide and Anthem herbicides may still qualify at applicable use rates. Please contact local FMC RMM with any questions.
