

Topguard® EQ Fungicide and Hero® Insecticide Soybean Yield Assurance Program

Program Description:

The Topguard® EQ fungicide / Hero® insecticide Soybean Yield Assurance Program is designed to help growers realize the yield benefits of foliar disease and insect management in soybeans. Growers enrolling in this program are assured at least **three bushels per acre yield** improvement over their untreated check if Topguard EQ fungicide and Hero insecticide are applied according to the following recommendation.

Qualifying Product	Assurance Benefit	Minimum Application Rate	Growth Stage	Program Payment Timing
Topguard EQ fungicide + Hero insecticide	3 bu/A yield improvement	5 fl. oz./A Topguard EQ fungicide 5 fl. oz./A Hero insecticide	R1 – R3	30 days after claim submission

- Apply in a minimum of 10 gallons/A total spray volume by ground or 2 gallons/A by air.
- Please consult the Topguard EQ fungicide and Hero insecticide product labels for more detailed recommendations.

Program Qualifications:

If a Topguard EQ fungicide and Hero insecticide application is made according to the recommendations above and does **NOT** result in a minimum **three bushels per acre yield increase** over an untreated check*, FMC will return the difference between the bushel yield in treated acres and untreated check, up to three bushels, at the October 2, 2019, Chicago Board of Trade closing price per bushel not to exceed purchase price of Topguard EQ fungicide and Hero insecticide combination.

*An untreated strip/check area of the field representative of the field and one round wide ground application (180 ft.) or (500 ft. wide for aerial application) in which the application was made, must be harvested on the same day the entire field is harvested. The untreated check area cannot have any foliar fungicides or insecticides applied during the program period in order to maintain a useful comparison. All other agronomic factors must be the same in both the untreated check and treated areas, including but not limited to fertility programs, irrigation, soil type and soybean variety. The comparison treated area will be made comparing an equal measurement on either side of the untreated check. This check is to be a fair, representative, side-by-side comparison. If the treated area does not out yield, on an equivalent moisture adjusted basis, the untreated check area by three bushels per acre or greater, the participating grower or retailer must notify their FMC representative **by or before November 15, 2019** to request reimbursement. Claims for reimbursement up to the full purchase price of Topguard EQ fungicide and Hero insecticide (application and other costs not reimbursed) will require purchase receipts, electronic “as applied” raw application data and electronic raw yield data so we may verify through third-party GIS analysis prior to reimbursement. Payment will be issued to the grower.

To learn more, visit FMCCrop.com, call your local FMC representative or our customer service center at 800-346-0833.

Topguard® EQ Fungicide and Hero® Insecticide Soybean Yield Assurance Program

FMC will not reimburse for yield reductions related to climatic factors i.e., flooding, hail, wind, drought, fire, extenuating soil conditions i.e., differences in soil types, tillage, soil compaction, flooding etc., damage by pests other than soybean insects and/or foliar disease or any form of mechanical damage.

Program Requirements:

1. Leave a check strip in each field as described above. A side-by-side comparison in the same field is required to maintain similar topography, soil type and agronomic conditions for accurate comparison.
2. Use identical seed varieties or hybrids, fertility, tillage, seeding rate and weed control programs in all comparison check strips.
3. Products must be applied according to label use directions.
4. Record and save product lot or batch numbers.
5. If there is a concern about return on investment, you must contact your FMC representative no later than **November 15, 2019**.

Program Period:	June 1, 2019 to November 15, 2019
Program Geography:	U.S. minus California
Program Claim Deadline:	November 15, 2019
Program Payment Date:	Approximately 30 days after claim approval

Program Rules & Conditions:

1. FMC reserves the right to change any or all features of this program at any time.
2. Assurance benefit is for product costs only. Application and other related costs are excluded from assurance payments.
3. An authorized FMC representative must be notified of a claim prior to the established deadline and have a reasonable opportunity to inspect prior to any additional product applications. The authorized FMC representative must confirm inadequate product performance.
4. Proof of purchase is required. Only FMC branded products purchased from FMC authorized distributors or retailers and reported by Data Dimensions are eligible for payment under this program.
5. Only product purchased for resale to growers is eligible for payment under the terms of this program.
6. FMC reserves the right to audit all claims. Misreported sales of any type are a clear violation of this program and will be subject to audit and possible forfeiture of any and all program benefits.
7. FMC is in no way liable or responsible for any grower failure to pay the retailer.
