

REVOLUTIONIZE HOW YOU PROTECT YOUR SEASON.

Get a better return on your seed investment from the start. Only the revolutionary 3RIVE 3D® application system from FMC puts growers at the forefront of crop protection by delivering a continuous Zone of Protection™ for seedling defense and yield enhancement.

As part of the FMC Freedom Pass program, growers who commit to and purchase minimum qualifying volumes of 3RIVE 3D formulated products in any combination qualify for a 3RIVE 3D application system at **no initial cost**.

Commit by October 31, 2020 and receive free professional installation.

Commit between November 1, 2020 and February 28, 2021 and purchase an additional 15 gallons per year to receive free professional installation.*

"With the 3RIVE 3D application system, we apply four to five ounces of product per acre, and we need only 40 ounces of water, so there's not a bunch of added weight on the planter. I can do 400 to 500 acres with one fill."

-Steve Beutel, Princeville, Illinois

GO ABOVE AND BEYOND SEED TRAITS AND TREATMENTS.

The 3RIVE 3D application system saves you time, fuel, labor, water and worry as it delivers additional protection to your most valuable corn or soybean input investment.

- The compact tank easily mounts to all major planter brands.
- Water and product mix in the applicator with no measuring or mixing required.
- Mixture expands up to 50X to deliver early in-furrow protection.
- Eliminates saddle tanks, reduces refills and trips through your fields.
