

2021 Corn & Soybean Replant Reimbursement Assurance

PROGRAM DESCRIPTION

The FMC Corn and Soybean Replant Reimbursement program is designed to provide growers with the assurance that if adverse weather or other conditions exist requiring replanting, FMC is there to provide assistance by standing behind their products used at-plant for their seed and seedling pest control in corn and soybeans.

Eligible Products	Reimbursement / Replant Coverage
Capture® LFR® insecticide Capture® 3RIVE 3D® insecticide Ethos® XB insecticide/fungicide Ethos® 3D® insecticide/fungicide	50% of the cost of additional treatment with an in-furrow brand used for replanting due to weather-related conditions.

Replant Assurance – Growers are eligible through June 30, 2021, for reimbursement of **50% of the cost of an additional treatment** with in-furrow brands listed above should the grower choose to replant due to weather-related conditions. For this replant reimbursement, growers must apply the additional treatment in full accordance with all label directions.

To be eligible, growers choosing to participate must contact their local FMC retail market manager or Star Retailer before selecting the coverage option and making additional applications of any qualifying FMC products.
